Venue:- KICC, Nairobi, Kenya

ABOUT US

Tummy Pops is a mukhwas brand serving Indian food lovers since 2018 with the best quality mukhwas prepared using authentic recipes and methods used for decades by Dadi and Nani Maa. After long research and hard work, we launched our first range of products, i.e., Classic Range which is sourced from across Rajasthan ensuring the taste and quality of the products. This range of products is made in small batches using sundried ingredients and with lots of love. And Nukkad Range consists of hygienically prepared yet best of taste and quality products are well known from the childhood of 90's and early 20's kids.

We started with a team of 5 and right now we have a 45+ workforce. The owner of the brand Mr. Ritesh Dalmia has worked very hard to promote this Indian after-meal to the heights by making people aware of these amazing mukhwas and their digestive properties. Using his 20+ years of experience, Tummy Pops is the first brand to introduce people to the mukhwas as a unique and premium gifting article.

Our efforts and research into sourcing mukhwas cooked in the right way have paid well as our customers love our products. Until now, we have sold 10,000+ tons of mukhwas and 8 lakhs+ units of our products.

OUR USP

We Are Yummy!

**We Are The Modern
Ethnic**
